

International Journal of Environmental Science and Development

CONTENTS

Volume 8, Number 11, November 2017

• **Environmental Biotechnology and Microbiology**

Effect of Temperature on Biohydrogen and Biomethane Productions by Anaerobic Digestion of Sugar Beet by-Products.....762

K. Aboudi, X. Gómez-Quiroga, C. J. Álvarez-Gallego, J. M. Quiroga-Alonso, and L. I. Romero-García

Growth Performance of Fresh Water Microalgae *Chlorella* sp. Exposed to Carbon Dioxide.....767

Titin Handayani, Adi Mulyanto, and Fajar Eko Priyanto

Effects of Glucose and Ferrous Supplements and Culture Conditions on Lipopeptide Biosurfactant from *Pseudomonas* spp.....772

Thanawat Choopraserdchok, Dusit Athinuwat, and Pumnat Cheunchomrat

• **Environmental Pollution and Management**

Vehicle Routing Optimization for Improving Fleet Fuel Efficiency: A Case Study in Sydney, Australia776

Hoda Karimipour, Vivian W. Y. Tam, Helen Burnie, and Khoa N. Le

Challenges and Developments in the Utilization of Fly Ash in China781

Shu-Hua Ma, Min-Di Xu, Qiqige, Xiao-Hui Wang, and Xiao Zhou

• **Environmental Biology**

Study of the Removal of Lead from Human Blood Plasma Using *Allium cepa* as Biosorbent.....786

P. A. Ekwumemgbo and V. U. Jibunor

Paleoenvironment and Paleoecology Based on Recent Benthic Foraminifera in Cikadal Beach, Ciletuh Geopark, West Java, Indonesia.....793

Reisha Navelie, Hany Nabila, Lia Jurnaliah, Winantris, and Mega Rosana
